VadaTech Announces a MTCA.4 RTM for AMC577

Henderson, NV – November 3, 2023 – VadaTech, a leading manufacturer of integrated systems, embedded boards, enabling software and application-ready platforms, announces the MRT577A. The MRT577A is a Rear Transition Module (RTM) for VadaTech's AMC577. The RTM routes analog to the rear panel and the 16 ADC/DAC are AC coupled with a choice of Balun specification.

VadaTech offers a wide range of MicroTCA.4 products, including full systems. Please consult with VadaTech Sales to discuss products and specific ordering options.

About VadaTech

VadaTech provides innovative embedded computing solutions from board-level products, chassis-level platforms, to configurable application-ready systems. With a focus on AdvancedTCA, MicroTCA, VPX and PCIe solutions, the company offers unmatched product selection and expertise. A unique combination of electrical, mechanical, software, and system-level expertise, enables VadaTech to provide customized commercial or rugged computing solutions to meet the most complex customer requirements. VadaTech also offers specialized product solutions for VME, CompactPCI, and other architectures. A member of PICMG and VITA, VadaTech has headquarters, design and manufacturing facilities in Henderson, NV with design, support and sales offices in Europe and Asia Pacific.
