

## ATC998 – ATCA Ethernet Pass-through Front Board

ATCA Ethernet Pass-through

### KEY FEATURES

- Ethernet Pass-through front board
- Eight RJ-45 for front panel access
- Ethernet signals routed to Zone 3 connector
- Designed to mate with ART998 (RTM)
- RoHS compliant

**Advanced TCA®**

### Benefits of Choosing VadaTech

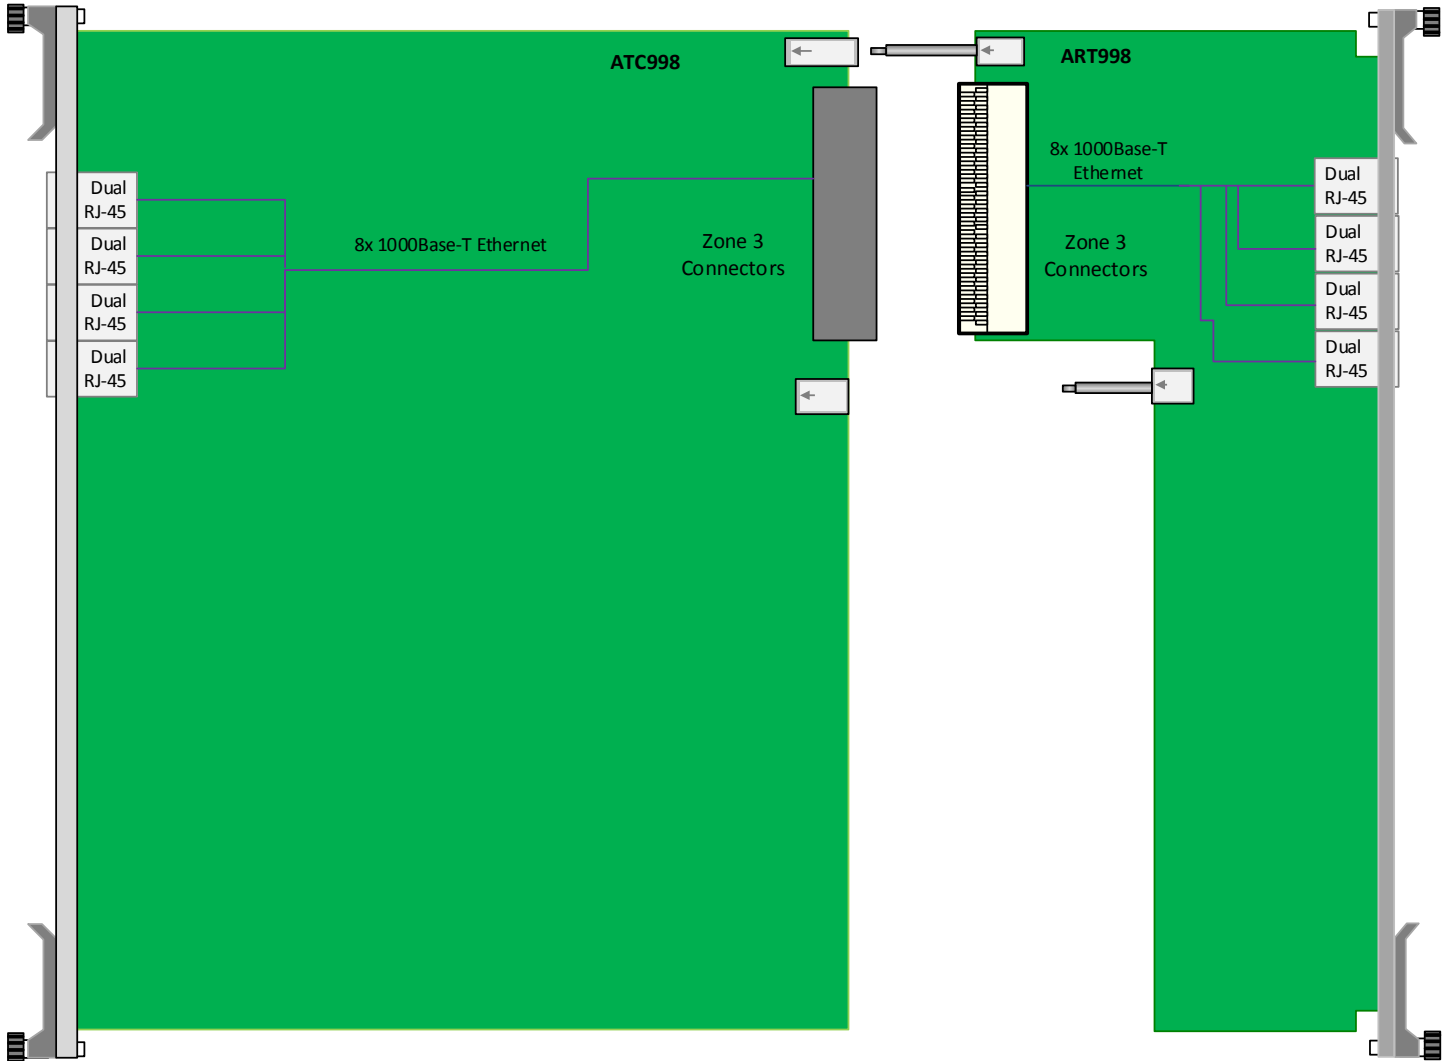

- Electrical, mechanical, software, and system-level expertise in house
- Full ecosystem of front and rear boards, enclosures, specialty modules, and test/dev products from one source
- AS9100 and ISO9001 certified company

The ATC998 is an Advanced Telecommunication Computing Architecture (ATCA) pass through module for GbE. The ATCA998 routes 8x 1000Base-T Ethernet from the front panel to a Rear Transition Module (RTM) through the Zone 3 connector. This eliminates cabling from the top or side of the chassis hence a more robust integration.

Front panel Ethernet access is provided through eight RJ-45 ports.

The ATC998 is designed to mate with the Vadatech Rear Transition Module (RTM) ART998.
