CP219

The CP219 is a 3U single slot Compact PCI (cPCI) module that has 12 Ports of 10/100/1000 GbE. The Module has the option for two Ports on its P2 Connector.

The switch is managed via http and supports a rich set of features such as VLAN, Spanning tree, QoS, Mirroring, etc.

VadaTech can modify this product to meet special customer requirements without NRE (minimum order placement is required).
