VT036

ATCA Shelf Manager and Managed Layer 2 Switch for VT834

Key Features

- Quad-core ARM processor @ 1 GHz per core
- One GB DDR3 Memory
- Onboard managed layer 2 switch
- FRAM for log messages
- Field upgradable with dual boot Flash
- Telco alarm with Micro DB15 connector front panel interface
- Isolated DC/DC converter
- IPMI 2.0 compliant

Benefits

- Active/standby redundancy when utilizing two VT036s
- Rich set of Management software such as HPI, RMCP, SNMP, CLI, HTTP, etc.
- VT036 can run as an IPMI protocol analyser to monitor all IPMB buses
- Electrical, mechanical, software, and system-level expertise in house
- Full system supply from industry leader
- AS9100 and ISO9001 certified company
VT036

The VadaTech VT036 is a Shelf Manager for the VT834 chassis. It has a layer two managed switch with four Ports routed to the front panel, four Ports to the rear and one to the onboard shelf manager CPU. The unit has a power consumption of 7W.

The VT036 can also run as a protocol analyzer to monitor, inject, capture and validate I2C traffic on the Intelligent Platform Management Bus (IPMB) buses. Each IPMI bus has a 64-byte FIFO to allow for a full IPMI packet on each I2C bus so there is no packet loss during operation.

A Graphical User Interface (GUI) validates and displays the IPMI packets or schedules IPMI messages for injection into the shelf. The GUI application communicates with the VT036 through the Ethernet port.

When two VT036s are in the system, they operate in redundant active/standby mode. During operation one VT036 is active while the second one is synchronized in hot standby mode.

The VT036 is fully hot-swappable to minimize service down time. Lithium Battery and/or Super CAP for the Real Time Clock.

### Front Panel Interface Connectors

- DB15 connector for Telco Alarm
- DB9 for CPU RS-232
- RJ-45 for 10/100
- Micro USB for IPMI RS-232
- Single 10/100 out of band port support to the shelf manager
- RJ-45 x4 for Ethernet

### LEDs

- IPMI management, Activity and Status

### Push Button

- Telco Alarm reset and system reset

### Software Support

- Operating System: N/A

### Other

- MTBF: MIL Hand book 217-F@ TBD hrs
- Certifications: Designed to meet FCC, CE and UL certifications, where applicable
- Standards: VadaTech is certified to both the ISO9001:2015 and AS9100D standards
- Warranty: Two (2) years, see [VadaTech Terms and Conditions](#)

---

### INTEGRATION SERVICES AND APPLICATION-READY PLATFORMS

VadaTech has a full ecosystem of OpenVPX, ATCA and MTCA products including chassis platforms, shelf managers, AMC modules, Switch and Payload Boards, Rear Transition Modules (RTMs), Power Modules, and more. The company also offers integration services as well as pre-configured Application-Ready Platforms. Please contact VadaTech Sales for more information.

Choose VadaTech

We are technology leaders
• First-to-market silicon
• Constant innovation
• Open systems expertise

We commit to our customers
• Partnerships power innovation
• Collaborative approach
• Mutual success

We deliver complexity
• Complete signal chain
• System management
• Configurable solutions

We manufacture in-house
• Agile production
• Accelerated deployment
• AS9100 accredited
