VT072

The VT072 is a single slot backplane which allows any AMC.1, AMC.2, AMC.3 or AMC.4 to be utilized. The board is ideal for low-cost testing/development of AMC modules.

The VT072 requires +12V input power (connector part number 1586039-6 from TE) applied from an external power supply.

Please make sure the AMC is inserted in the correct origination into the VT072 connector or the AMC module will be damaged.
