VT974

10GbE Layer 2/3 switch 48 ports with SyncE

Key Features

- Managed Layer 2 and Layer 3 GbE Switch
- VadaTech Shelf Management
- 48 ports 10GbE via SFP+
- 1U, 19” rackmount and very low depth 14.6”
- Front to rear integrated intelligent cooling
- Integrated removable and redundant AC or DC power supply
- SyncE support w/ option for internal master clock

Benefits

- Compact rack mount fully integrated solution
- Continuous control and alarm reporting for ease of maintenance
- Highest level of quality and manufacturing standard AS9100 and ISO9001 certified company
VT974

The VT974 is a 10GbE layer 2 and layer 3 switch with 48 10GbE ports via 48 front panel SFP+. It supports Synchronous Ethernet (SyncE) and IEEE1588.

Cooling and Temperature Sensors

The VT974 has an embedded intelligent Cooling Unit. The cooling airflow is from front to back. Temperature sensors fitted throughout the chassis monitor intake and outtake air temperature and report to the embedded Shelf Manager. The Shelf Manager controls fan speeds for optimized tradeoff between power consumption, noise and cooling. The fans are removable, the power modules are hot-swappable and redundant.

Synchronous Ethernet

The VT974 provides a Synchronous Ethernet (SyncE) on the 10GbE fabric ports. With this feature, ports on the 10G Ethernet switch can be designated as master or slave ports and the Ethernet fabrics within the chassis can be synchronized from end-to-end with external equipment. This feature utilizes advanced telecom-grade network synchronization PLLs to provide exceptional SyncE performance.

## Specifications

| Architecture | Dimensions | Width: 19”
|--------------|------------|----------------------------------|
|              |            | Depth: 14.6”
|              |            | Height: 1U
| Type         | Chassis    | L2 / L3 switch 10G 48 ports with SyncE
| Configuration| VT974      | Dual 460W DC -36V to -75V or Dual 500W Universal AC
| Power        |            | See [Ordering Options](mailto:info@vadatech.com)
| Environmental| Temperature| Storage Temperature: –40° to +85°C
|              |            | JIS E 3014 Class 1 kind C
|              |            | JIS E 301S Class 1
|              | EMC/EMI (*)| Designed to meet IEC61000-4-2 level 3; IEC6100-4-4 Level 3; IEC61000-4-5 level 3; JIS E 3021; NECA TR-28 - JEMA JEM-TR177 2kV rectangular wave impulse noise
| Front Panel  | Interface Connectors | 48x SFP+ networking / 1x SMA clocking / 1x RS232 microUSB, 1x RS232 USB and 1x GbE management controller console
| Rear Panel   | Power       | Dual Power Input
| Software Support | Operating System | Agnostic / Linux based Shelf Management
| Other | MTBF | MIL Handbook 217-F@ TBD hrs
| Certifications | Design to meet FCC, CE and UL certifications, where applicable
| Standards | VadaTech is certified to both the ISO9001:2000 and AS9100B:2004 standards
| Warranty | Two (2) year, see [VadaTech Terms and Conditions](http://www.vadatech.com) (*) Partial sections of the specification may apply only, does not include transceivers, contact Sales for details

INTEGRATION SERVICES AND APPLICATION-READY PLATFORMS

VadaTech has a full ecosystem of OpenVPX, ATCA and MTCA products including chassis platforms, shelf managers, AMC modules, Switch and Payload Boards, Rear Transition Modules (RTMs), Power Modules, and more. The company also offers integration services as well as pre-configured Application-Ready Platforms. Please contact VadaTech Sales for more information.

  - Front-panel inputs trigger Multicast Event Control Symbols (MECS)
Choose VadaTech

We are technology leaders
- First-to-market silicon
- Constant innovation
- Open systems expertise

We commit to our customers
- Partnerships power innovation
- Collaborative approach
- Mutual success

We deliver complexity
- Complete signal chain
- System management
- Configurable solutions

We manufacture in-house
- Agile production
- Accelerated deployment
- AS9100 accredited
