VTX351
6U VPX Backplane With Optics To The Rear

Key Features
- 6U VPX backplane
- Rugged Chassis and Fiber Optics per VITA 66.5
- Rear Mezzanine Cards w/ IO
- Dual-Redundant VPX Power Supply slots
- Eight 6U VPX Payload slots

Benefits
- Rugged construction suitable for field deployment in harsh environments
- Ideal for Phased Array Radars, Signal Processing, CCD/CMOS Imaging Sensors and FPGA SERDES applications
- Electrical, mechanical, software, and system-level expertise in house
- Full system supply from industry leader
- AS9100 and ISO9001 certified company
VTX351

The backplane provides eight 6U VPX payload slots, fully compliant to VITA 46.0 baseline specification with additional support to the RTMs, compliant to VITA 46.10 and OpenVPX VITA65.

The chassis can accept 0.8-inch, 0.85-inch and 1.0-inch pitch modules. It provides fiber connectivity via VITA 66.5 blind-mate backplane connections and is ideal for field deployment in rugged, harsh environments.

Power Supplies
The VTX350 has two dual-Redundant VPX power supply in slots 9 and 10.

Chassis
The VTX351 is meant for integration in custom conduction or non-conduction cool chassis. Contact VadaTech Sales for available integrated solutions.

Rear Mezzanine Cards
Custom mezzanine cards are available for connectivity expansion on the rear.

**INTEGRATION SERVICES AND APPLICATION-READY PLATFORMS**

VadaTech has a full ecosystem of OpenVPX, ATCA and MTCA products including chassis platforms, shelf managers, AMC modules, Switch and Payload Boards, Rear Transition Modules (RTMs), Power Modules, and more. The company also offers integration services as well as pre-configured Application-Ready Platforms. Please contact VadaTech Sales for more information.
