- Setup and operate Coherent Laser cutter for cutting of front panels, plates, and lexan overlays
- Perform machining work on manual Knee mill to modify existing machined parts to revised specifications
- Assist with other metals parts and fixture fabrication work, as needed – including cutting, jiggling, installation of hardware and helicoils, physical dimensioning, etc.
- Capable of holding tight tolerances associated with the machining of precision parts
- Use measuring gauges including micrometers, calipers, height gauge, depth gauge, bore gauges, Mahr gages, and others to inspect manufactured parts, in order to ensure adherence to drawing tolerances.
- Perform machine shop set-up and maintenance.
- Perform daily cleaning and light maintenance tasks on machinery.
- Ensure all manufacturing safety & regulatory policies and procedures are implemented and maintained at all times.
- Actively practice a culture of 5S (Sort, Set and Order, Shine, Standardize and Sustain) in the machine shop.

### **Required Education/Skills:**

- Certification related to Machining or Machine Tool Technology and High school diploma required.
- Minimum of 2 years of experience in a machinist role.
- Experience in CNC Programming, and MasterCam a plus
- Ability to proficiently operate manual knee mill, drill press, band saw.
- Ability to review part prints and assure machining accuracy.
- Ability to read and interpret engineering drawings
- Strong experience with using standard inspection tools and methods in the evaluation of machined parts.
- Ability to work in both R&D and production rate environments.
- Creative problem solver, able to work in multi-disciplinary teams.
- Excellent interpersonal and communication skills.

### **Physical Demands:**

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of the job.

- Sitting and standing for long hours
- Ability to move around the facility, climbing stairs as necessary, bend down and reach up
