VadaTech Announces a Intel Tiger Lake i7-1185GRE in 3U-VPX with XMC slot

Henderson, NV – February 2, 2023 – VadaTech, a leading manufacturer of integrated systems, embedded boards, enabling software and application-ready platforms, announces the [VPX769](#). The VPX769 is based on Intel Tiger Lake i7-1185GRE in 3U VPX form factor. The module has triple 10GbE as 10G-BaseKR, triple GbE as 1000Base-T, dual USB3.2, 2x SFI, single RS-232, single RS-422 and dual GPIO to rear. The VPX769 comes with 32GB of DDR4 memory with ECC, and dual 64GB of SATA SSD for user storage.

The modules HDMI port is routed to the P2 and also has a single XMC slot per ANSI/VITA 42.3 (XMC PCI Express) and routes the user I/O of XMC J16 as VITA 46.9 X8d+X12d to P2. Additionally, the unit provides Serial Over LAN (SOL) to access the module serial port over IP. Please consult with VadaTech Sales to discuss the product and specific ordering options.

About VadaTech

[VadaTech](#) provides innovative embedded computing solutions from board-level products, chassis-level platforms, to configurable application-ready systems. With a focus on AdvancedTCA, MicroTCA, VPX and PCIe solutions, the company offers unmatched product selection and expertise. A unique combination of electrical, mechanical, software, and system-level expertise, enables VadaTech to provide customized commercial or rugged computing solutions to meet the most complex customer requirements. VadaTech also offers specialized product solutions for VME, CompactPCI, and other architectures. A member of PICMG and VITA, VadaTech has headquarters, design and manufacturing facilities in Henderson, NV with design, support and sales offices in Europe and Asia Pacific.
